SITUATION FACTORY

Composed by: Keren Rosenbaum (1995)

'Situation Factory' originally was named 'The Biggest Chocolate Factory' and was first performed in 1995 in a classroom in Tel-Aviv Art School in front of 6th Grade class of 24 students. It was later rewritten for large audience and was performed during endless master classes of Active Listening Playgrounds (ALP) all over the world.

Situation Factory can be played by individual performer or by a large group of participants. It is up to you. Enjoy.
